

BEFORE printing the whole file please

**first print this page separately**

and check the test square for the right measurements!

## SIZE MATTERS!

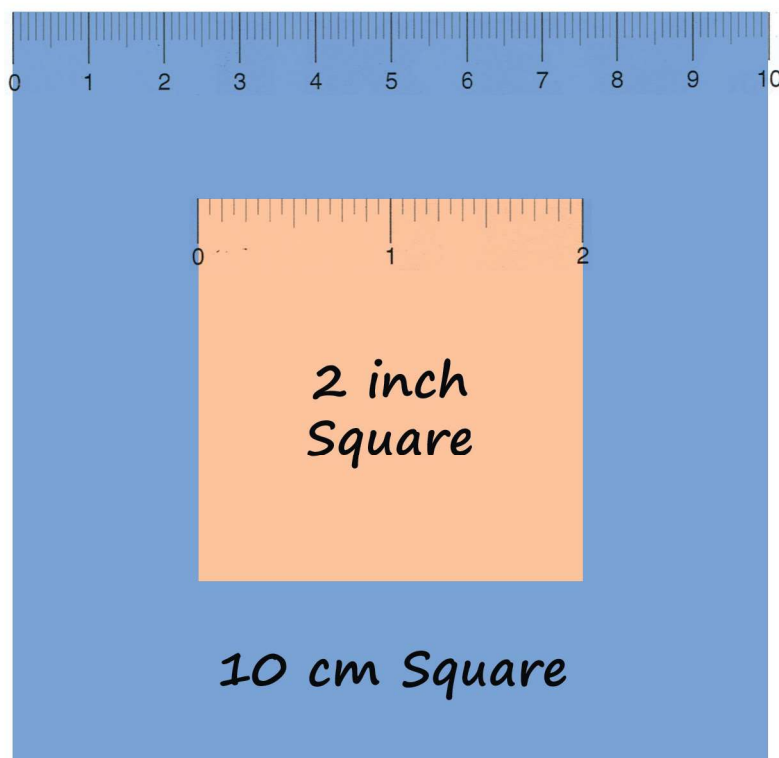

To use this as a sewing pattern all measurements must be exactly like the original design! This is very different from regular a PDF file that is just to read and look at.

Tips to make sure measurements will remain exact in size :

First download the file + **save on your computer** or laptop  
(not on a tablet or smartphone because this software is not compatible)

Then open the file in recent Adobe Acrobat Reader software  
but don't use the version that comes with Windows 8 and don't use Mac Preview or  
your internet browser for printing this file.

Print the file in 'real size' setting, do not use 100% setting  
Select paper size : A4
